

Output

Enter Array size : 10

Enter 10 Array Elements:

23

667

67

36

07

32

39

48

99

98

highest value of element 667

93) Write a program to display highest of given element with position.

```
#include <stdio.h>
```

```
void main()
```

```
{
```

```
int a[100], n, i, high;
```

```
char c;
```

```
printf("\n Enter Array size: ");
```

```
scanf("%d", &n);
```
