

48] Write a program to display highest and lowest of given three numbers.

```
→ #include <stdio.h>
```

```
void main()
```

```
{
```

```
int a, b, c, h, l;
```

```
clrscr();
```

```
printf("\nEnter Three Number :");
```

```
scanf("%d %d %d", &a, &b, &c);
```

```
if (a > b)
```

```
{
```

```
if (a > c)
```

```
{
```

```
if (b > c)
```

```
{
```

```
h = a;
```

```
l = c;
```

```
}
```

```
else
```

```
{
```

```
h = a;
```

```
l = b;
```

```
}
```

```
}
```

```
else
```

```
{
```

```
h = c;
```

```
l = b;
```

```
}
```

```
}
```

```
else if (a > c)
```
