52) Same program wing while loop

```c
#include <stdio.h>
void main()
{
    int n, u=1;
    clrscr();
    printf("\nEnter value for n:");
    scanf("%d", &n);
    printf("\n\nGeneration of 1 to %d Natural Numbers:\n", n);
    while (u <= n)
    {
        printf("\t%d", u);
        u++=1;    u=u+1;
    }
    getch();
}
```

53) Same program wing do while loop

```c
#include <stdio.h>
void main()
{
    int n, u=1;
    clrscr();
    printf("\nEnter value for n:");
    scanf("%d", &n);
    printf("\n\nGeneration of 1 to %d Natural number:\n",
    do
    {
        printf("\t%d", u);
        ++u;
```
