40) Write a program to dsply highest of given three no/s.

```c
#include <stdio.h>
void main()
{
    int a,b,c,h;
    clrscr();
    printf("\n Enter Three Numbers:");
    scanf("%d %d %d",&a,&b,&c);
    if (a>b)
    {
        if (a>c)
        {
            h=a;
        }
        else
        {
            h=c;
        }
    }
    else if (b>c)
    {
        h=b;
    }
    else
    {
        h=c;
    }
    printf("\n Highest of Two Number : %d",h);
    getch();
}
```
